Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reopen

This is reopen prosecution because after reconsidering the claimed invention, new grounds of rejections are requested for the record of the prosecution. Office apologize any inconveniency that brought by this reopen practice.

Response to Amendment

This is a response to the amendment, paper No. 19, filed 01/30/04. Claim 4 and the specification have been amended. Claims 1, 4, 6, and 14-17 are pending and considered before the examiner.

Please note any ground of rejection(s) that has not been repeated is removed. Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

Claim Rejections - 35 USC § 112

1. Claims 1, 4, 6 and 14-17 are still rejected under 35 U.S.C. 112, second paragraph on the same ground as stated in the previous Office Action, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
2. Claims 1 and 4 are unclear for defining which modified gp120 polypeptide is because claims still fail to define which "portion of at least two conserved regions" is referred to and the metes and bounds of the portion are not defined.
3. In response to the Office Action, Applicants amend the claims to limit the glycosylation sites. The amendment has been entered and considered. However, it is still unable to satisfy the question that Office raised in the previous Office Action in that what is the metes and bounds of portion of at least two conserved regions are. This affects the dependent claims 6 and 14-17.

New Ground of Rejection:

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1648

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 6 is unclear in that it fails to define what the recited "a cavity", "a defined turn structure" and the interface" are. The claim is interpreted in light of the specification; however, the specification does not give any definitions about above-mentioned terms. Please clarify.

Conclusion

No claims are allowed.
